5. Paid sick leave
  - a. I would support a limited paid sick leave program. There are benefits to both employees and employers from paid sick leave programs, but we must be careful that introducing such legislation does not create a sudden, onerous burden on businesses in a difficult time for the economy.
6. Paid family leave
  - a. Support
7. Minimum wage
  - a. I would support an increase in the minimum wage, but I think it is important that we keep the wage similar to surrounding states. We must be careful in a tough economy that new regulations and legislation do not adversely impact small businesses' ability to hire new workers.

- 16. Mortgage Assistance Program
  - a. While I am in principle supportive of this legislation, it is important to me that we identify a source of funding that does not adversely affect other functions of state government.
- 17. Foreclosure assistance
  - a. We must work to protect individuals harmed by predatory foreclosure and homelending practices. I would support the Foreclosure Rescue Fraud Prevention Act, which would provide protection for people going through a foreclosure. Many families received mortgages under false pretenses and with deceptive terms—it is important to me that we protect these individuals.

- 20. Income tax rate
  - a. I would support reinstating the Millionaire's Tax, but not the tax described in this question. Any revenue increase must be used to provide property tax relief.
- 21. Income tax rate
  - a. As mentioned above, I would be in favor of a Millionaire's Tax, with revenue directed to property tax relief.
- 22. Telecommunication deregulation
  - a. While I support deregulation to promote a healthy business environment that creates jobs, I would only support such a measure if it retained adequate protections for consumers.
